Color A3 all-in-one for business that demand productivity, quality and value.

A color A3 multifunctional that's easy to use and designed to help limit the administrative costs related to printing – a complete end-to-end document workflow solution for any office.

*Shown with optional accesories

Quality from Canon

The imageRUNNER C3025i is a color A3 multifunctional offering up to 25 (BW, CL, LTR) pages per minute print speed and thanks to key technologies it can become a valuable asset to any working environment all in a compact freestanding, offering. Canon's V^2 (Vivid & Vibrant) imaging technology helps provide documents that truly stand out results and the responsive 5 inch (12.7 cm) color touch interface delivers a quick and easy user experience. Thanks to mobile printing and scanning capabilities including Apple AirPrint™ and Mopria printing it not only supports new ways of working but promotes it.

Control the total cost of print

Easy device management is designed to help limit administrative costs for IT teams thanks to less time and effort needed to maintain the device, with automated meter collection, consumables management and remote diagnostics. Thanks to embedded support for Canon's optional uniFLOW software the imageRUNNER C3025i can easily integrate as part of a larger fleet, letting you track and charge individual print jobs to people, locations, departments and projects, as well as providing per-user reports.

**Fits any office environment**

The imageRUNNER C3025i's size and power make it a small but mighty document solution outstanding for small workgroups within organizations of any size. Workflow integration, productivity and the option of 3-in-1 staple finishing are all available within the device's compact freestanding footprint, while adding the device to existing ecosystems is made simple with support for optional PCL and Genuine Adobe PS. Security features a priority in any modern working environment, help limit access to your information with Secure Print, pin release and PDF password protection, plus optional uniFLOW can add further levels of security around your information.
